As a neighbor who lives within walking distance of Lamplighter Lounge, I would urge careful consideration of license conditions for this establishment. It is my understanding that this place consumes a disproportionate amount of resources from the city police department. It does not feel like a safe place to walk at dusk or later, and it is not a place that I want my children near. I believe that it is inauspiciously close to an elementary school and imagine that many parents share my sentiment.

Thank you for choosing safety and sending a message that we will not tolerate the kinds of senseless violence that have gone on at this location in the past.

Sincerely,

Anita Dualeh
