**Subject:** RES PH 24-193 Application for Sound Level Variance  
**Date:** Tuesday, August 13, 2024 9:55:33 AM

---

Dear City Council Members,

I am writing to urge you to limit the requested sound level variance at Allianz Field for September 21st to levels much lower than what was permitted for the event there on June 29th of this year, and to limit any such variance to no later than 9:00 p.m.

The sound from that event completely overwhelmed the Lex-Ham neighborhood. Many of my neighbors have babies and small children who were unable to sleep that evening. And many of my adult neighbors, like myself, had our sleep disrupted because we retire before 11:00 p.m. The noise also made it impossible to enjoy a nice summer evening outside with family, friends and neighbors.

A fine summer evening in Minnesota is a precious thing to be enjoyed. Excessive noise from events at Allianz Field and lately from Seafoam Stadium create a real quality of life issue for our neighborhood.

Thank you for your consideration of this request.

Terri Kimker
