Attachments: Site map - 1064 Pacific - trailer parking pad.jpg

I have solicited quotes from 2 local roofing companies for the garage.

DSI did not have a site map for my property. The person at the desk outlined the requirements, gave me an example, explained the maximum allowed parking area. I believe I have worked out a solution that meets the City's requirements and allows me flexibility to meet potential future building needs while maintaining security and preserving the look and usability of our yard

The attached site plan that I put together shows the existing 35' x 18' (630 sf) parking pad in brown. The green shows a ribbon strip driveway and parking pad that is 9' x 30' (270 sf). The ribbon strips will be 2 foot wide and 7 foot on center. The strips will be composed of open cell concrete pavers.
