This bulletin was sent to the following groups of people:

Subscribers of ENS - D17: CapitolRiver Council or ENS - D9: West 7th / Fort Road Federation (828 recipients)

Event: City of Saint Paul Public Works Bridge Division Westbound Kellogg Boulevard Bridge 62574 Preservation

Description of Variance:

Location: Westbound Kellogg Boulevard from its intersection with West 7th Street easterly to its intersection with Washington Street

Noise Source: City of Saint Paul Public Works Bridge Division, as part of a Joint Replacement and Mill and Overlay Construction Project, has applied for a sound level variance, for operating general construction/demolition equipment and other repair and installation equipment for a joint replacement and mill and overlay construction project. Rehabilitation and removal of deteriorated roadway, joint replacement and construction and installation is required. Work is to take place, weather dependent, during overnight periods, from Wednesday, August 1, 2018 through Sunday, September 30, 2018, from 10:00 p.m. until 7:00 a.m. for activities such as use of pneumatic hammers, media blasting, power screed, surface removal, milling and asphalt rollers and paving, bobcat use, back up equipment beeper use, dump trucks and street sweepers, and hand power tools. The project proposes to allow elevated sound levels during overnight hours, from 10:00 p.m. until 7:00 a.m. on Westbound Kellogg Boulevard, from its intersection with West 7th Street easterly to its intersection with Washington Street, not to exceed eight days in total. The Department of Safety and Inspections is recommending that the variance would include project night time work, with elevated sound levels not to exceed a Max L10 80 dBA at 50 feet from 10:00 p.m. until 7:00 a.m., with duration of one to two days at a time, with maximum of four to eight days in total. Overnight work would take place in the period between Wednesday, August 1, 2018 and Sunday, September 30, 2018. Occupants of property located within 400 feet of the work location are to be notified in writing by the Public Works Bridge Division a minimum of forty-eight (48) hours prior to the start of the work. DSI also recommends that Public Works Bridge Division provide personnel and equipment to ensure compliance with the variance conditions. Contractors working on the project to use best practicable methods for controlling noise such as noise blankets, shields or portable sound barriers. Construction activities should be scheduled to minimize noise as much as possible in the late night and early morning hours.

A public hearing before the City Council on this variance request will be held on:

Date: Wednesday, July 18, 2018
Time: 5:30 p.m.
Location: 3rd floor, City Hall Council Chambers

If you attend the public hearing, you will be given the opportunity to present verbal comments or objections before the City Council. If you are unable to attend the public hearing, you may submit written comments or objections with the City of St. Paul, Department of Safety and Inspections, 375 Jackson Street, Suite 220, Saint Paul, Minnesota 55101-1806, attention Barb McMonigal-St. Dennis or by email to barb.mcmonigal-st.dennis@ci.stpaul.mn.us. Written comments or objections must be received on or before Tuesday, July 17, 2018.
