Subject: Hello

Hello Mr. Essling,

I am emailing you into regards at 2027 Worcester. My husband had his cars registered with collector's plates. They told him the plates will arrive in 30-60 days and he was given yellow registration papers for the back of each vehicle. (Which has both been taped in). The DMV told him to leave the current plates on until the collector plates arrive in the mail. They said that was okay as long as the yellow papers are in the back windows. Please let me know if you need me to fax over the registration or paperwork for the Cadillac and the Chevrolet.

I know you will be stopping over to check tomorrow and I may not be home as I have a Doctors appointment. Please feel free to walk about the property.

Thank you,

Jen Sharlow
