Good afternoon!

I have just been made aware of the attached regarding the elimination of the alley near Sycamore and Rice. The elimination of this alley will make servicing the residents in the alley difficult and very unsafe. We will be required to back down the alley. As we all know anytime that backing is required the opportunity for accident or injury increases dramatically. I am positive that Eureka will have the same challenges to service the residents, as well as any delivery trucks for the residents.

Please take this into consideration as you review this consideration to vacate the alley right away. Please feel free to contact me if you wish to discuss any further.

Thank you!!

**Jim Smith**
