RECEIVED  
MAR 29 2016  
CITY CLERK

Ms. Vang

Thank you for accepting this letter in place of my mother or I attending the hearing. I was almost fired the last time I had to take off for a hearing on his illegal dumping on my mom's back yard. We don't use the back behind the garage and he knows that. He sometimes stored building supplies behind her house against her will.

She is 89 and scared to death of the neighbor who has been accused of the illegal dumping in her yard. I have had the neighbor cited by the city twice (15-242-197 Officer Boone and 15-228-168 Officer Zink )For the illegal dumping and all that seems to do is to rile him up more and he continues to litter ( pop cans and used condom's) and dump old mattresses behind her house. I'm doing the best I can to keep up with the mess but I live in South St. Paul work and get over to take of her every other day. She does Home health care. The trash goes out once a week so it's had to tell when he has dumped behind the garage. Since the fall my wife's mother has passed so I will have more time now this spring to clean things up if needed. But I hope he is finished.

Thank you, Donald J Rora
