To whom it may concern:

I'm writing this letter for my brother, Gerald Putz who in May of 2012 had a stroke. He resides at 731 Blair Avenue

He received a letter about large items of trash left behind his garage which were cleaned up by the city and that he now owes for this cleanup the amount of \$588.00.

These items are not his. He is an invalid and not able to get back to his garage as he can only walk with the aid of a walker or cane. He can not drive. He only leaves his house for a doctor appointment which I take him in my car.

I feel this charge is very unfair to him and am outraged that people can be so inconsiderate and mean.

We would like to know what can be done to prevent this from happening again

Jean L. Wilome
