06/19/2002	02 133287	Closed No Action	PV - Project Facilitator Review	Project Applicant Justin Greco, Executive Chef/Owner - Applicant is proposing to convert a former retail deli (dba Taste of Scandinavia) into a 50 to 60 seat restaurant and catering business. Plans include expanding the floor area of the deli into an adjacent unused space increasing the overall gross floor area to 2400 square feet. This expanded area

		would house separate kitchens for the restaurant and catering operation plus a private dining room. The former deli space would be used for the main restaurant seating and for two planned new restrooms. The existing floor levels for the restaurant is four to six steps below grade at the outside entry area. Wine and beer will be served. The space has sustained some water damage resulting from a parking lot drainage problem, so there are plans to remedy this problem as part of the proposed remodel.

We can schedule a project review meeting once you have the floorplan for the entire building (showing square footages for each space, and specifying the uses for each space), and a site plan showing the available parking on the property. If I were to speculate on this matter, I would guess there may be a parking related issue with regards to meeting applicable City Zoning requirements. However, without the floorplan and siteplan we cannot determine specifics for this situation. Please let me know if you have any further questions regarding this matter. Jeff F.
