Hello, my name is Joseph Londino LONDINO. I reside at 2225 5th St. E St. Paul, MN. I am calling about the proposed work that is going to be done in my neighborhood. It's called the 4th and Howard phase two project. I'm calling to object to this project as is. There's nothing wrong with the street that I live on 5th St. I also am calling because when I receive this public hearing notice, I also received a day later that this phase two project was already on its way and that why would I have a chance to reject this or to object to it. When I received a letter from Saint Paul Public Works the very next day that said that this project is moving forward. I think that this was a bad way of communicating with the residents and owners who are affected by this project and are being assessed what they are assessed. I have a strong. I have a strong objection to this and I'm sure that others will as well, especially if they receive this the way that I did. I cannot attend the meeting at the council chambers because I worked that day and I cannot get off work and get there by 3:30. So this is my objection. I don't think there's anything wrong with our street and I want this on record. Thank you for thank you for your time.

You received a voice mail from [+1 651-272-0399](tel:+1651-272-0399).
