Dear Marcia,

My name is Bob Johnson of the A Democracy Town Hall. As you may well know I am a property/civil rights advocate in Saint Paul. You and I met at Mitch Bergs administrative hearing. I worked many hours free of charge to help Mitch make his home compliant. I thank you kindly for treating Mitch fairly.

What you may not know about me is, I have offered advice and volunteered my time to countless home owners to keep them out of trouble with the city. These are the faces you never see because I helped the home owners get on track with making their buildings a safe secure home for occupants.

John Krenik has asked me for his help in resolving his issues with the city. I will attend the administrative hearing today with John.

John was not able to complete his work on his building due to unexpected events. Heart surgery on his son and John was injured himself. John had lost his building permit due to time off, and wasn't able to complete the stone sills on his building. John has renewed his permit but weather has delayed his efforts. John has the financial ability to make the necessary repairs to this building and is willing to do so.

John wants nothing more than a working relation with the city and I will help John meet all the expectations you require of him.

Respectfully,

Bob Johnson
