Re: 472 Concord Street

On January 18, 2010, the WSCO Building and Land Use Committee approved a motion to request the City of Saint Paul provide a 120 day extension on the repair or removal order to the Guadalupe Alternative Programs (GAP) for 472 Concord Street. The extension would allow GAP to develop a site plan for the reuse of this parcel.

GAP plays an important role on the West Side by offering youth access to employment and training opportunities. Providing an extension will ensure that GAP continues to be successful in their endeavors moving forward.

Please feel free to contact me if you have any questions.

Sincerely,

Elena Gaarder
Executive Director
West Side Citizens Organization
