**Subject:** Payne Ave's Shop N Go

Christine/Kyle:

I spoke to Victor (manager) again this afternoon. He wanted to know if I got his email. I then told him I was confused by the email and requested a week or so earlier to clarify which hearing the licensee wanted (public or administrative).

He said the licensee did not want this on his record and I explained that if we go to an administrative hearing or a public hearing and they impose the fine then it would be the licensee's record. I think I finally got through to him about which hearing they needed.

He agreed that the violation took place but the licensee is contesting the penalty so I said that he needed to appear before Council. He agreed and I told him the earliest we could schedule it was July 20th. I told him I would send out the public hearing packet and give him a date to send any information he wants Council to review before the hearing. He was fine with that, SO THIS ONE WILL NOT GO TO AN ADMINISTRATIVE HEARING.
