Interdepartmental Memorandum

CITY OF SAINT PAUL

To: Peter White

From: James Zdon *JZ*

Subject: Assessments/Places to Park Program

Date: June 21, 1994

I am requesting Valuation Division's assistance to begin the process to establish capital and operating assessment districts for the following two parking projects under the Places to Park Program.

1. 811 Case

Legal Description: Lot 17 Block 20 Arlington Hills Addition

18743

This parking project consists of the acquisition and demolition of a vacant house at 811 Case and the construction of a surface parking lot of approximately 12 to 13 spaces. This publicly owned parking lot will serve commercial businesses in the immediate area. Project capital costs are estimated at \$96,076.00 with 90% of the costs funded by the Places to Park Program and the remaining 10% assessed to five benefiting commercial property owners. The annual capital assessment is estimated to be \$699.00 (4% interest, 20 year term).

18744

Annual operating expenses are estimated at \$2475.00 per year and will include utilities, insurance, snow removal, general maintenance and repairs. The five benefiting commercial property owners will be responsible for the operating expense assessments and managing the facility. The surface parking facility should be completed by November 1, 1994. Estimated operating assessments are for the time periods of November 1, 1994 to December 31, 1994 and January 1, 1995 to December 31, 1995. Operating assessments for subsequent years would be developed and reviewed on an annual basis.

2. Grand and Snelling

Legal Description: Lots 17, 18 and 19, Block 2, Summit View Addition

18745

This project consists of HRA leasehold improvements to an existing parking lot owned by the Immaculate Heart of Mary parish. Upon completion of the improvements approximately 54 parking spaces would be available for commercial use. In addition, pedestrian improvements in an alley across the street would also be constructed to facilitate pedestrian movement between the parking lot and commercial businesses. Project capital costs are estimated to be \$100,640.00 with 80% of the costs funded through the Places to Park Program and 20% assessed to six adjacent commercial property owners. The annual capital assessment is estimated to be \$1787 (4% interest and 15 year term).

18746

Annual operating expenses are estimated at \$7,700.00 per year and would include utilities, insurance, rental payments, snow plowing, general maintenance and repair. The six commercial property owners would be responsible for the operating assessments and managing the facility. The project is projected to be completed by November 1, 1994. Operating assessments are for time periods November 1, 1994 to December 31, 1994 and January 1, 1995 to December 31, 1995. Operating assessments for subsequent years would be developed and reviewed on an annual basis.

Our schedule for both projects is to secure assessment waivers from commercial property owners within the next two weeks. Once the waivers are in hand we will be going to the HRA Board in July to secure program funding and authorization to proceed.

Please call me at 266-6559 if you have any questions. Thanks.
