Dear Sir/Madam:

The City of Saint Paul, Department of Safety and Inspections has inspected the above referenced property on **September 04, 2024** and has determined that the following deficiencies exist in violation of the Saint Paul Legislative Code¹ (see footnote 1, below).

Footnote:

¹ To see the Legislative Code go to www.stpaul.gov on the internet, click on "Departments", then click on "Department of Safety and Inspections", scroll down the page for the "Codes". Most Correction Notices derive from Chapter 34.

WARNING: Code inspection and enforcement trips cost the taxpayers money. If the violations are not corrected within the time period required in this notice, the city's costs in conducting a reinspection for compliance after the due date will be collected from the owner rather than being paid for by the taxpayers of the City. If additional new violations are discovered within the next following 12 months, the city's costs in conducting additional inspections at this same location within said 12 months will be collected from the owner rather than being paid for by the taxpayers of the City. Any such future costs will be collected via assessment against the real property and are in addition to any other fines or assessments which may be levied against you and your property.

Severe injury has substantially slowed the project down

Note: I can send pictures but they are VERY GRAPHIC and may make some people sick

City of St Paul fire inspection department has requested this work be done. I have done over \$30,000
years of improvements to the building. Still trying to get the remainder done.

Use a Construction rental Shed from WSS. Meant for getting the required work done on the building.
