Attention : Cynthia, Badge # 344

Dear Cynthia:

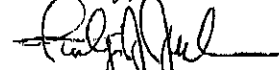

I had left a phone message for you on March 11, 2013 regarding the Summary Abatement Order that you've issued for my property at 1982 Portland Avenue St. Paul, MN 55104.

I had spoken to my caretaker Scott Coen and he had received a copy of your notice at the property as well. He stated that the new tenants downstairs had a great deal of trash that they had placed on top of the trash containers. He informed them that all trash must be placed inside the containers always. They said they would do so in the future.

I have always had a weekly trash service for the past 30 or so years that I've owned the property. My trash service provider is Pete's Rubbish Hauling in Forest Lake. I believe they use the property address as account number. I spoke with Pauline at Pete's Rubbish Service (651-462-5907) and she said she knew Cynthia and would call and speak with her.

In the Abatement letter it said that I had to remove the metal trash cans as well as the trash. Is there a container other than metal trash cans that are to be used for rubbish? I have used plastic ones before but the squirrels and raccoons chew through the containers. I had spent a considerable amount on metal sturdy cans for the property for safety and cleanliness. Please let me know if you would like me to use something other than metal containers.

Sincerely,

Timothy J. P. Jordan
