Re: Minnesota Office of the Attorney General Inquiry
Account #51-6914415

Dear Elsie Mayard:

Your concern directed to the Minnesota Office of the Attorney General was forwarded to my attention for investigation and response. This letter is a follow-up to the outcome.

In your complaint you were concerned after your electric service was disconnected for non-payment. The balance on your account was \$4141.05. You paid \$2000 to get the service back on. You need to make an arrangement and you need to call me for an arrangement.

Please note that payment arrangement is very strict; I suggest that you make your payments in advance. If the arrangement breaks you could be reconnected. .

I apologize for any inconvenience this may have caused. If you have further questions or concerns please call 651-639-4387.

Sincerely,

A handwritten signature in cursive script that reads 'Nancy Heitzinger'.

Subject: FW: Re-Elsie Mayard
Attachments: 059896A.pdf; 059896A1.xls; 059896A2.xls; 059896B1.pdf; 059896B2.pdf; 059896C.pdf

John, I have reviewed Elsie Mayard's accounts #6914415 755 Minnehaha Fl 1 and #9136075 755 Minnehaha Fl 2. Below are the responses to your questions; I've also attached the appropriate documentation.

Ms. Mayard asks how she can be billed for gas and electric when they were shut off prior to Oct 22, 2010. Xcel Energy records show that at 755 Minnehaha Ave Fl 2 - gas was disconnected from 8/27/10 to 10/22/10, electric was disconnected from 6/22/10 to 10/22/10. Neither gas or electric were shut off on Fl 1. Note that even when the service is off there is still a monthly service charge. Also, when we investigated the gas service we found that the gas riser valve was loose, so a small amount of gas was still running. Investigations relocked gas meter 10/20/10. The gas department checked the gas meters and there are no leaks.

(Enclosure A is a spreadsheet of when the service was shut off, the monthly gas and electric charges, and usage for both Fl 1 and Fl 2 at 755 Minnehaha Ave per your request).

Ms. Mayard is questioning the large difference between her gas and electric bills. On Fl 1 the electric bill for March was \$336.59 and the gas bill was \$124.19; it appears that Ms. Mayard is using electric space heaters. On Floor 2 the electric for March was \$53.34 and the gas was \$8.57. This usage is minimal, and suggests that either no one was living on the 2nd Floor or it was used sparingly. These bills are based on actual meter readings. Xcel Energy has no way to determine how a customer actually uses their gas and electric.

(Enclosure B is a copy of these bills.)

Ms. Mayard also asked how we billed for discovered meters on Fl 2. Even though we didn't previously have a customer of record for billing purposes, we still read the meter. Once we verified the owner, the account was billed using those actual readings.

Lastly, in regards to the service being shared. Xcel Energy records show that in 2006 an investigation was completed per customer request and no shared metering was found. Both Fl 1 and Fl 2 have always been in the owner's name and have always been billed to the owner.

(Enclosure C is a copy of the 2006 shared meter report investigation and meter test.)

I do not see any additional information that would change the fact that this billing is Ms. Mayard's responsibility. I understand Ms. Mayard has financial issues but she also needs to make regular payments for a service she has and is using. Nothing has been paid since last year. Xcel Energy would need a substantial down payment and then a pay agreement that Ms. Mayard would need to keep in order to prevent further credit action.

On account #6914415 755 Minnehaha Ave Fl 1 the balance owing is \$1139.62.
 On account #9136075 755 Minnehaha Ave Fl 2 the balance owing is \$7231.33.

City Fees
A fee some cities impose that Xcel Energy collects from customers and pays directly to the city.

Electronic Check Conversion
When you pay your bill by check, in most cases Xcel Energy will use your check information to make a one-time electronic debit from your checking account on the day we receive your check. There are no fees for this electronic conversion. In all other cases we will process your check.

Environmental Information
Fuels used to generate electricity have different costs, reliability and air emissions. For more information, contact Xcel Energy at 1-800-895-4999 or online at www.xcelenergy.com. You can also contact the Minnesota Department of Commerce at www.commerce.state.mn.us or the Minnesota Pollution Control Agency at www.pca.state.mn.us/program/electricity.html.

Estimated Bills
Xcel Energy attempts to read meters each month. If no reading is taken, Xcel Energy estimates your month's bill based on your past use.

Affordability Charge
A surcharge to recover the costs of offering bill payment assistance and discount programs for low-income customers.

Basic Service Charge
Fixed monthly charge for certain fixed costs (metering, billing, maintenance, etc.).

Conservation Improvement Programs
Minnesota law requires Xcel Energy to invest in programs that help customers save energy.

Demand Charge
Charge to commercial and industrial customers for the fixed costs of the electric capacity required to meet the peak electric loads on Xcel Energy's system. The charge, which is adjusted seasonally, applies to the highest 15 minute kW demand during the billing period.

Energy Charge
Charge per kWh of electricity usage to recover the variable costs of producing energy.

Environmental Improvement Rider
Minnesota law allows Xcel Energy to recover the costs of significant environmental improvements at three of Xcel Energy's fossil fuel power plants.

Fuel Clause Adjustment
Charge per kWh to recover the costs of fuel needed to run Xcel Energy's generating plants, as well as the cost of purchasing energy from other suppliers.

kWh
One kilowatt-hour (kWh) is a unit of electrical usage. One kWh equals 1,000 watts of electricity used for one hour. This is enough electricity to light a 100-watt light bulb for 10 hours.

Basic Service Charge
Monthly charge for certain fixed costs (metering, billing, maintenance, etc.).

Charge per therm
Charge to recover the cost of natural gas purchases from wholesale suppliers and delivered to Xcel Energy's distribution system via pipeline. This charge is adjusted each month.

Conservation Improvement Programs
Minnesota law requires Xcel Energy to invest in programs that help customers save energy.

Distribution Charge
Charge per therm that covers only the delivery costs of natural gas to a home or business through our distribution system. It does not include the charges for the natural gas itself.

Gas Affordability Program
A surcharge to recover the costs of offering a low-income customer co-pay program designed to reduce natural gas service disconnections. Billed to all non-interruptible customers.

Standard Payment Options: (No fees apply)
• **My Account/Bill™** - View/pay your bill, view energy usage and access account information.
• **Auto Pay** - Automatically pay your bill directly from your bank account.
• **Online View and Pay** - View and pay your bills online.
• **Pay By Phone** - Make your payment by phone from your checking or savings account by calling 1-800-895-4999.
• **Pay By Mail** - Return the enclosed envelope and attached bill stub with your payment.
Apply proper postage.

ABOUT YOUR ELECTRIC RATES

ABOUT YOUR NATURAL GAS RATES

Heat Content Adjustment
Corrects for variances in the heating capability of natural gas, and the adjustment varies monthly. The higher the heat content, the lower the volume of natural gas needed to provide the same heating.
Pressure Correction Adjustment
Adjusts for variances in the amount of natural gas measured by different types of meters due to pressure differences in the natural gas delivered to a service.
Resource Adjustment
This includes costs related to Conservation Improvement Programs and State Energy Policy Rider.
State Energy Policy
Minnesota law allows Xcel Energy to recover costs related to various energy policies approved by the Legislature.
Transmission Cost Recovery
Minnesota law allows Xcel Energy to recover costs associated with new investments in the electric transmission system necessary to deliver electric energy to customers.
Windsource™
Windsource™ is an optional program where you choose how much wind energy you would like to support. You can choose a fixed number of Windsource™ blocks (100 kWh each) or choose a 100% Windsource™ option.

Second, I contacted Xcel Energy on June 6, 2008 pursuant to your call. Customer service representative Nancy Heitzinger advised that \$3,924.50 is currently owed on your account. She noted that, previously, shared metering was found at your duplex, and you were back billed. She indicated that she would contact you, and would also contact PAR at Xcel Energy to try to help you obtain assistance. When I receive a written response from Xcel Energy, I will forward a copy to you for your review and records.

I thank you for contacting this Office. Please feel free to contact this Office again in the future if you should have another consumer related concern.

Sincerely,
