RE: 1555 Jackson Street Alley Vacation

The owner of 1555 Jackson Street removed a dilapidated shed and plans to rebuild a shed on the same white slab foundation with the same footprint as the previous one.

The permit office requires an alley vacation to rebuild a shed that was originally located there, it is not a shed being built in a new location nor a larger shed. The North End Neighborhood Organization has no objections or concerns regarding vacating the alley.

Thank you for your consideration and please contact us if you have any questions.

Regards,

*Kerry Antrim*
