

Dear Councilmember:

Subsequent to a recent meeting involving Pizza Luce and the neighborhood, hosted by Councilmember Carter, requesting alternatives to the use of 1170 Selby Avenue as a parking lot, another suggestion occurred to us after reading about the solution offered to Cupcakes. Like Cupcakes, why not encourage Pizza Luce to negotiate the use of one or more of the many "underutilized" lots already existing on Selby Avenue, as an alternative to building another unsafe parking lot? A Shuttle traversing a few blocks would, I predict, be cheaper for Pizza Luce than maintaining another lot across the street and would, I presume, be welcomed by their patrons. It would have the added benefit of reducing the traffic activity and congestion on Selby between Dunlap and Griggs and encourage consumers to patronize additional businesses in the area.
