

Here we go again. You're trying to find money to replace all of the money you spent on settlements or increase your own salaries, so hey, let's focus now on replacing lights and fixtures in an area that the Mayor doesn't care about and that this area is slowly recovering from the recession!

This public hearing is ridiculous as you're going to approve it anyway!

\$666.00 is a lot of money, but you don't care.

I want a NO VOTE ON THIS!!

Think about the seniors that live around here and want to stay in their homes.

We're all tired of being taxed all the time!! You can't hide behind the word assessment-Thank you Supreme Court, so you're trying to find money!

Before you begin to make aesthetically improvements, FOCUS on helping us recover from the recession and build up this area first! Then, fix the lights!

This is not an assessment, this is a TAX!!!!

Think about your constituents first instead of yourselves. We can vote you out!

Vote NO!
