City Council —

My name is Ted Casper, co-owner of The Nook for over 20 yrs, co-owner of Steam rocks for 15 yrs. I'm writing this letter today in concern over the proposed Bike lane for Hamline Ave

We have to understand a few things when city planning is involved:

- Businesses are essential to thriving communities
- Parking is essential to thriving businesses
- Bike Lanes are Nice!
- Bike Lanes may be needed.
- Bike Lanes should never disrupt parking for businesses
- Less Parking is Less Parking

We have always had parking issues at the Nook and on our corner. We propose exploring alternative routes like Edgewood Ave. You may find a huge upside to this consideration.
