Subject: City Council Meeting of March 16, 2016, specifically action related to the Cleveland Bicycle Plan

Importance: High

Mr. Stark,

As my Council Representative and President of the Council, I respectfully request that the pending final consideration of the Cleveland Bicycle Plan be rejected or that the decision be postponed until the Council and Planning Committee fully seek alternate points of view, fairly assess the negative impact the proposal will have on the area residents and thoroughly consider less impactful alternatives, specifically using the existing system on Mississippi River Road to achieve the same travel access. The authorizing documents clearly state that resident input is required. There is no indication of non-city employee involvement that is not openly biased in support of bicycling.

I have copied you on various enquiries, information request and clarification requests. Please advise if your office has not retained them and wish me to forward them to you again for background reference.
