RE: Notice of Vilation by Checker Bar.
License ID#:20100003374

Att: Daphne Lundstrom
Assistant City Attorney

I am writting this letter to contest and dispute the \$500.00 matrix penalty.

Christine Rozek, Deputy Director of DSI requested a video of an incident that happened on May 4, 2013 at Checker Bar 992 Arcade St. which I or my electronic DVR can not provide.

Two years ago, when I took over this business all the previous conditions were placed on my license. I try very hard to do the best I can to not violate any of the conditions and I believed that I did a better job running this business than the previous owner. Sgt. Steve Parson who is the East side investigator and LC Camera had came and inspect the camera system and other new cameras that I installed in the premises. The camera recording machine was abled to record and kept memories up to three months. When you request for a copy of this incident on May 4, 2013, my recording machine can only allow me to view as far back as 12 days. I did not acknowledge of any malfunction of the recording machine. I than immediately called LC camera for service. He rebooted the recording machine but it still did not work. Due to the conditions on my license, I requested that LC camera order me a new recording machine which is costing me \$1,900.00 not including labor. See attached sales agreement.

I understand that the police did not asked me for a copy of the video incident that night but I was not awared that my recording machine was broken. Recently, I double check on the recording machine and it can only let me review 12 days of recordings.

I am admitted to the fact that I was unable to provide a video of an incident to you per my license condition, but I am contesting to the penalty that I was not aware about the broken recording machine and to the fact that I am willing to correct this problem by ordering a new machine to replace the old one.

I am looking foward to work and correct any problems and conditions to better all

communications.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mai Her', with a stylized, cursive flourish extending to the right.

Mai Her
