

SUMMARY OF ENGINEERING RECOMMENDATION

Ward 3

PROJECT: RECONSTRUCT ABOVE STANDARD DECORATIVE SIDEWALK

B.S. FORD PARKWAY from S. Mississippi River Boulevard to S. Finn Street; B.S. S. CLEVELAND AVENUE from Kenneth Street to S. Howell Street and B.S. S. CLEVELAND AVENUE from Pinehurst Avenue to Bayard Avenue. A request has been made for a decorative above standard sidewalk to replace the existing decorative sidewalk.

INITIATING ACTION: This order was initiated because the existing decorative sidewalk is crumbling, heaved, settled, has missing brick, asphalt repairs and there are concerns about public safety. This request has been asked by the Highland Business Association and the Department of Public Works

EXISTING CONDITIONS: This walk was last constructed in 1985 as part of a Ford Parkway/Cleveland Avenue streetscape project.
