Dec. 2017

Dear Sir or Madam:

I am writing this letter to object to the license application for Global Auto USA. The additional cars parked in the neighborhood will cause a decrease in parking spaces for our neighbors.

Also, the idea to repair vehicles in the building is a cause for concern because there are a large number of children living in the neighborhood who will suffer the effects of toxins & pollution.

Illegal dumping & removal or disposal of toxic materials is a concern also. The business needs to adhere to strict environmental guidelines. There is already too much toxic pollution in the area from nearby businesses. Please do not allow repairing services to this business.

Sincerely,
Rhonda
