I recd. the video for Hot Rods at approximately 9:42 a.m. this morning. There was a call on my phone at 4:00 pm yesterday from a Roger Willingham informing me that they had to call in the tech because they couldn't download the requested video and they wouldn't be able to get it to me by 4:30.

I had requested video from midnight to 1:30 am. The video starts at 12:59.57 and ends at 1:30.01. I watched all cameras and saw one person with a security t-shirt on. At no time did I see a wand or anyone being wanded. The requested video ends at 1:30 with customers and staff still inside with what appears to be beverages. It was difficult to tell who was staff and who were guest as at some point there were several people behind the bar and then the same sitting and visiting or playing pool.

I will keep the recording with the paperwork for adverse action.
