**Subject:** Liquor License- 825 Jefferson Ave- Tav on the Ave

After reviewing the recommended license conditions for the liquor license for Tav on the Ave, a couple questions came up.

I am wondering what are the ramifications for not following through on the plan, i.e. when patrons continuously loiter and/or cause a disturbance as well as the beer bottles that litter the yards all the way down Fulton? At what point will the liquor license be pulled or what are the punitive measures to take place before that happens?

In reference to recommendation number 3, what is the timeline for installation and implementation of the surveillance system and what are repercussions for not following through?

Thanks for your time!
