Subject: summary abatement order for 1139 Raleigh St

Ms. Joanna Zimny;

This is the "proposal" you requested in your May 21 email. To begin, the 3-way phone Legislative Hearing conversation on May 19 did not include any directive that I heard to provide a proposal to be submitted for review and approval. My subsequent efforts to be informed as to the format or contents of such a proposal went unanswered, or worse, ignored. Therefore, without any direction other than our initial phone conversation, here goes ;

I propose to remove all materials itemized in the May 11, 2020 Abatement Order from Mr. Kedrowski. In the stack of lumber materials, but not cited, were exterior extension ladders. The Abatement Hearing verbal agreement as I understood it, would allow me to hang the two 40 foot extension ladders on brackets on the north side of the garage. Locating a 28 foot ladder on cement blocks beneath the 2 wall-hung ladders, thus 9 inches above ground, was also requested, and tentatively agreed-to. This effort will be completed by June 21, 2020.

Hopefully this is a satisfactory response to the proposal request.

Elliott

Respectfully, Edward
