Re: 2121 Minnehaha Ave. E.

To whom this may concern,

I am hereby requesting an appeal hearing and/or variance to address Item No. 4 (upper level ceiling height) of the attached Fire Inspection Correction Notice dated 06/09/15. The upper level is only one room and is currently being used as a bedroom. The ceiling height on the upper level is 6'-6" (6" short of the required 7' for habitable areas).

I purchase this property in 2013 from the daughters of the original owner. Their father built the house in 1952. They told me the upper level was originally constructed as a bedroom and used by both daughters while growing up.

This upper level bedroom has two windows, plenty of closet space and is equipped with hardwired smoke/CO detectors.

Please let me know if any additional information is needed.

Thank you,
