|------------|--|---------------|---|---|
|            |  |               |   | Building in line and north of Pennock, repair to existing sanitary sewer. I researched the entire building for sewer records last week and determined this 15" sanitary running N-S near the building is a NROC, no record available. I suggest repair be made and lines be televised to determine if the line is even functional as it appears the 15" was bulkheaded in 1988. |
