Hi Mai,

Both of the orders you send to me in this letter is the same one. I remember that when i got the first one, same as the one you sent here, then i dig the refrigerator out from the snow my self and i push the refrigerator back to the house, as you see on the picture you sent to me yesterday, After i push the refrigerator to the house they sent me another order.

We have rental property and over time here and there we will get order during the year different time. few order each year. I never come and say a words because really wasting my time with the government process but this time i don't feel that it is right, because the 1st order i dig the refrigerator out and push back to the house i get another order so i hand it to my husband and he got there take the refrigerator and throw it away at the junk yard. If the city want to charge \$452.00 i don't have issue with payment but i want to know what are they clean and throw away. during that time till a lot of snow on the ground , the house have only one unit occupy, one unit is vacant. we have 2 big trash bin and 2 recycle bin there. the trash never full. if i have to pay i want to know and see the prof that they came to clean and throw way. Both order i got during that time is the "1 refrigerator" not any other things. So i want to see the clean up and the refrigerator that they pick up from there.

For 1139 Ross, Ave. , I already talk to one of your agent, Clare.

Thank you,

Julin moua

Lily,

1139 Ross Ave is a garbage assessment so it will be scheduled on a different date in July. I have asked Public Works to put together a file for the hearing in July so I will send you information later on.

As to Cook, yes, there are 2 orders.

Can you tell me your reason for appealing the garbage assessment for Ross so staff knows what to look for when entering the file for the hearing?

Mai
