

Dear Councilmember Pinner,

As your constituent, I want Saint Paul to do more to support multiple modes of transportation and address our climate crisis. I support Mayor Melvin Carter's vision to expand access and infrastructure for people walking, rolling, bicycling, using electric car sharing and public transit – and ask you to do the same.

When Mayor Carter announced plans to improve transportation options in Saint Paul, I was especially thrilled to see a plan to transform two car lanes on Ayd Mill Road into a new off-street path for biking and walking—building towards a Greenway Extension in Saint Paul.

We need to make transformative investments into multimodal transportation options so people can get around safely, easily, affordably, and sustainably. I urge you to vote in support of Mayor Carter's 2020 budget and invest in making our communities more connected and more resilient to the climate crisis, with his comprehensive strategy on transportation and transit.

Thank you for your work in the city.
We hope you consider this proposal as
it will show we are taking the climate
crisis seriously.
