

FIGHT High/Medium-Density

We, the citizens and property owners of St. Paul petition the St. Paul Planning & Economic Commission and City Council to zone the Ford development to a low-density standard.

(Nothing over four stories tall, at least 25% real green space)
The residents of Highland Park and surrounding communities are not willing to absorb the increased traffic and loss of property values, community, safety, livability and neighborhood integrity due to excessive buildout on the 135 acre site.

FIGHT High-rises in Highland

We, the citizens and property owners of St. Paul petition the St. Paul Planning & Economic Commission and City Council to zone the Ford development to a lower-density standard.

(Nothing over four stories tall, at least 25% real green space)
The residents of Highland Park and surrounding communities are not willing to absorb the increased traffic and loss of property values, community, safety, livability and neighborhood integrity due to excessive buildout on the 135 acre site.
