Jack,

Thank you very much for your support! I will forward this to the assessments@ci.stpaul.mn.us to be included in the record. I don't believe there are any other steps you need to take.

Hope you are healthy,

Chris

Think Before You Click: This email originated outside our organization.

Dear Chris,

On behalf of the Payne-Phalen Community Council, I am writing to let you know that our organization supports the Tedesco Street Reconstruction scheduled for the coming months. More specifically, we

support the comments and questions submitted under separate cover by the Railroad Island Neighborhood Group and we strongly encourage you to keep those questions and comments in mind during the public hearing for this project. We understand that the current Stay at Home order made it impossible to bring this project to meetings with RING or PPCC as intended this Spring. And we understand and support the City's need to proceed with the project. That said, we trust you will continue to work with us and with RING to address their design questions and concerns prior to the start of construction.

Likewise we are appreciative of the City's ongoing efforts to inform property owners, residents and businesses of the upcoming construction impacts and the necessary water outages related to the project.

Also, please know that PPCC is especially grateful that a public hearing will be held at a later date on the matter of assessments. This is particularly critical because the current circumstances have complicated outreach and community meetings specifically on this topic.

Thank you again for your cooperation and collaboration on this project and please do not hesitate to contact me if I can be of further assistance. And thank you for taking this letter into consideration in tomorrow's public hearing with the Saint Paul City Council.

Be well and stay safe,
Jack Byers

P.S. Presently a technical glitch in our remote officing capabilities precludes preparing a formal letter on letterhead today. Please except this email in lieu of such a letter.
