Saint Paul, Minnesota 55101-1806

**RE: Sound Level Variance requested by Marlene Earll, Assistant Race Director of Monster Series LLC, for Summit Ave. between Nina and Cathedral Hill of 85 dBa at no specified distance from the sound source, in order to present announcements, speakers and music from 8:00 a.m. until 1:00 p.m., with a pre-event sound check at 7:45 a.m., on Saturday, October 26, 2019 near Cathedral Hill Park.**

Dear Ms. McMonigal-St. Dennis and members of the St. Paul City Council:

Thank you for the notification to residents who will be affected by this request. **We, the undersigned residents of 300 Dayton Avenue, wish to state our objections to this and all requests for noise in excess of the allowed limits of 65 decibels (dBA) from 7:00 a.m. until 10:00 p.m. and 55 dBA from 10:00 p.m. until 7:00 a.m. at the receiving property.**

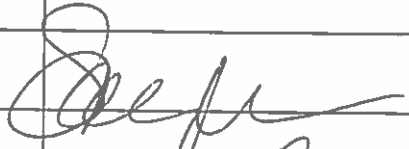

**These limits are in effect because this a residential area, and a densely populated one at that. Residents have work, school, sleep, family, and other obligations at all hours, and Saturday morning is no different.**

**We especially object to for-profit events being held in our neighborhood, requesting to make noise in excess of 30% over the allowed limit.**

If Monster Series LLC cannot stay within the set noise limits in this residential neighborhood, then they clearly need to find a different venue for their event.

**Please deny this request.**

Thank you,
