RE: License # 20230001030 - Sohn Hee Eateries, dba Best of Best Quality Korean Fried Chicken

To Whom It May Concern,

I write to object to the issuance of a license to serve liquor to the above establishment. My objections are as follows and include exhibits to illustrate those objections:

- **Exhibit 1:** There is a pre-existing drug and alcohol rehabilitation business that would now be *between the two liquor-serving establishments*. What kind of message does this send?
- **Exhibit 2:** There are already two (2) other restaurants that serve alcohol, including outside on the sidewalk, within two hundred (200) feet of the requesting establishment. In fact, one of the currently licensed establishments is two doors down from this one in the same strip of buildings. Adding another liquor resource is unnecessarily redundant.
- **Exhibit 3:** Note the proximity to a row of apartment buildings. Another bar has the potential to disrupt the peace of many people as opposed to single family dwellings. It may very well increase the need for a police presence due to unruly and/or illegal alcohol-driven behavior (e.g. public urination, disorderly conduct, lewd behavior, etc.). By the way, only one notice of licensure was addressed to each building. None were sent to any individual residents in the buildings. There might have been greater participation in this hearing had individual notices been sent.
- **Exhibit 4:** Currently nowhere else on Grand Avenue is there such a concentration of liquor-serving establishments, let alone in close proximity to a high number of apartment buildings. It also puts additional stresses on parking in a high-density apartment area where on-street parking is already in short supply due to the activities of the current restaurant business traffic. Black dots indicate liquor-serving establishments, blue dots indicate liquor stores. As you can readily see, our neighborhood is already "well-served."

I urge the City of Saint Paul to deny this license for the valid reasons stated above.

William Kelly
