Subject: Noise Variance

Hello District 2, Lisa and Chuck,

I am very excited to say that I am putting together another outdoor event. This outdoor event is going to be more of a rustic theme~ bonfires, Saving Starz (3-piece band) plays cover songs, outdoor grilling.. the tent is significantly smaller and so is the area that will be used for service liq area. I am placing the band next to the patio facing the north. In addition, I am teaming up with JJ Taylor the Leinekugel Beer distributor. We will be having Miller Lite & Leiney promotions during the evening of the event as well.

I am requesting 7:30-midnight for the noise variance.. This band is significantly different from all past tent parties, so I am asking for a later time. Very small band with limited equipment that reduces the volume tremendously.

1. No sound board
2. No sound technician
3. No Heavy Base
4. 3 piece band instead of 6
5. 2 speakers instead of the full size band equipment/speakers/sound

Let me know your thoughts and concerns,
Nicole Cherry

Please note the attachment

May 25th, 2011

To Whom it may concern;

I would like to request a Temporary Liquor Extension of Service Area & Noise Variance for the following:

Cherry Pit Outdoor Event Ramsey County Days!
Saturday July 16th, 2011
735 White Bear Avenue
St. Paul, MN 55106
Hours: 3pm-1am Service area
Hours Noise Variance: 7:30-Midnight
2-3 People will be staffed at one location for cover
2 employees will be serving at a outdoor bar
5 security staffed

Contact: Nicole Cherry 651-408-5752

NOISE VARIANCE

Please Note: The band Saving Starz is a 3 piece with no sound board or heavy sound equipment. 2 speakers will be used only. No base- The sound level will be SIGNIFICANTLY less to accommodate to the neighbors.

Due to a smaller size and significantly reduced sound level/equipment I am requesting the variance to midnight.

In the past, the band has always been a 5-6 piece with numerous speakers, sound board/sound technician and bass.
