Subject: RE: District Energy Boiler Testing SLV Date Clarification

Think Before You Click: This email originated outside our organization.

Hello Grace,

Our dates would be June 29 – July 10 based on our schedule, with no work scheduled on July 4 or 5.

If we finish early or in the unlikely event would need to go longer, do we need to communicate that or am I better off requesting additional dates in the following week?

Chris Peterson

Director – Regional Operations

Subject: [External] District Energy Boiler Testing SLV Date Clarification

Good morning, Mr. Peterson.

To appropriately process your application for a Sound Level Variance for the District Energy Boiler Testing specific dates are required.

It would be advantageous to provide exact dates as soon as possible. – you can do so by responding to this email when ready.

Thank you.

Grace Wagner
