

March 5, 2021

Dear Mr. Fischbach,

Thank you for the assistance for Licensing Liquor Outdoor patio at **Mucci's Italian**. We are excited for the opportunity to serve the neighborhood on an outdoor patio.

I mailed letters, requesting consent, to all of the persons listed in your neighborhood radius list. The letter included an invite to the District Council Land Use meeting, that occurred on Wednesday, March 3, 2021, to learn about the plan as well as voice any concerns. The letter also included a self-addressed stamped envelope for ease of return. In all, we have received 24 signed approvals and 1 return letter in opposition. I believe these results are indicative of general approval from the neighborhood. I should note that there was not one word in opposition of our patio addition at the District Council meeting.

Due to COVID-19, I do not believe a door knocking campaign would be received well by the neighbors, nor am I comfortable with this process, due to the current state of the pandemic. I have offered invites and access to discuss my proposal at the neighborhood District Council Land Use meeting, on March 3 and a letter asking for permission from our neighbors.

With the attached application, filing fee, site plan and neighborhood approval letter, we believe we have made a good faith effort to garner neighborhood approval for liquor service on an outdoor patio. We look forward to hearing back from you and are hopeful our outdoor patio will be approved.

Best,

Tim Niver  
Mucci's Italian
