Legislative Hearing Officer Marcia Moermond said the appeal involved an egress window with an opening of 14 inches, significantly less than the required 24 inches.

Mike LaCroix (5920 McKinley Place, Shorewood), representing Twin City Window, said the full-frame replacement windows installed were the same size as the originals, and because the house was a stucco structure they weren't comfortable trying to change opening size. Sponsors: Carter III

Legislative Hearing Officer Marcia Moermond said the item had been referred back into Legislative Hearing so an engineering firm code analysis could be provided which would be the basis for rehabilitation. She said no one appeared at the Legislative Hearing, and the code analysis was not provided; she recommended ordering removal or repair within 15 days.

No one appeared in opposition; Councilmember Carter moved to close the public hearing and approve the resolution.

- 99 RLH VO 12-16** Appeal of David Goldman to an Amended Notice of Condemnation as Unfit for Human Habitation and Order to Vacate at 641 LINCOLN AVENUE.

Sponsors: Thune

Legislative Hearing Officer Marcia Moermond said the property was noted to have significant gross unsanitary conditions in both units. She said the original 24-hour vacate order was modified to be appealable because Mr. Goldman was being treated at a medical facility at the time it was issued. She said the order was appealed, and information presented at the previous weeks' hearing indicated the order to vacate had been appropriate and there were some code violations present. She clarified that the order to vacate meant specific work could be done in the house during specific hours but the house could not be lived in. She said her recommendation was to deny the appeal, and if the Council approved her recommendation the house

would automatically become a Category 2 vacant building, requiring a Code Compliance before it could be reoccupied.

In opposition:

Tenants Leonard Bailey and Marlena ToSure reviewed their efforts to clean their own unit and Mr. Goldman's unit. They said it had been their understanding that the second inspection was for the whole house to be checked, but the inspector had condemned the house at that time without looking at anything. They said they had lived there for over a year and had running water. Ms. Tosure spoke about how the order to vacate had disrupted her child's schooling. Mr. Bailey said he'd done the work necessary to have running water in their apartment and hadn't known about the permit requirement. He said Mr. Goldman had removed items from the house and arranged for his trash hauler to pick them up but the City did the work before the private hauler came. He reiterated that they had been doing what they could and said Mr. Goldman was in the process of getting a loan to complete work on the house.

Property owner David Goldman said the inspector seemed to have an attitude that he (Mr. Goldman) belonged in a nursing home. He said he had an aide come in occasionally but was able to do everything himself. He said he'd lived in the house for almost 30 years, wanted to stay in the neighborhood, and didn't have anywhere else to go. He said he was looking into sources of assistance for fixing the house, and needed more time. He said he didn't have the money for the vacant property process. He said the house was almost cleaned up. He said he had contacted the History Center because his home was on the Federal Register. He said no one had notified him the City was coming to pick up the trash. Council President Lantry said that was a separate issue and would come before the Council later.

Councilmember Thune moved to close the public hearing. Yeas - 7 Nays - 0

Ms. Moermond said there had been a summary abatement for a substantial amount of material in the back yard, and Parks had performed the clean-up. She said the assessment would come before the Council later. She added that the inspection leading to the condemnation had originated as a referral following a police call for a welfare check. She said she had checked City records and did not find that the house was on the Federal Register. She also noted that her instructions to the inspector had been to order immediate vacate unless conditions had substantially changed.

Councilmember Thune said it was a heart rending issue, but a number of agencies had been involved and willing to step in, and the Council had a responsibility to the public to make sure property was sanitary. He moved to adopt the recommendation

of the Legislative Hearing Officer.

- 81 RLH RR 12-6** Ordering the rehabilitation or razing and removal of the structures at 304 EARL STREET within fifteen (15) days after the March 7, 2012 City Council Public Hearing.

Sponsors: Lantry

Legislative Hearing Officer Marcia Moermond said the conditions established at the initial hearing February 14 were not met, and a second hearing on the 28th was a "no-show" hearing. She said previous opportunities had not resulted in rehabilitation of the building, and her recommendation was to order removal of the structure within 15 days with no option for rehabilitation.

Property owner Chad Brabec said he did have \$5000 to put into the house but did not have \$5000 to put into an account for the performance deposit, and since that was required for the Code Compliance he hadn't felt there was a reason to call. He said he had no problem with the Code Compliance and knew what had to be done, and was asking for additional time. In response to a question from Council President Lantry he said he had purchased the property in 2007 but had been unable to finish it due to job travel and limited finances. He reviewed the areas that had been completed and said it was a fully functioning house.

Council President Lantry said the city had been maintaining the property. She said she didn't like to knock down a property and believed people should be given an opportunity, but based on the history she wasn't confident Mr. Brabec would do the work.

Mr. Brabec said some interior work had been done. Council President Lantry said she didn't see any permits in the record. Mr. Brabec said there had been permits to begin with and some work done, but he hadn't realized it had to be finished within a year. He reviewed the work that had been done.

Council President Lantry moved to close the public hearing and order the structure removed or repaired within 30 days.
