RE: Right-of Way Maintenance and Assesment Appeal.

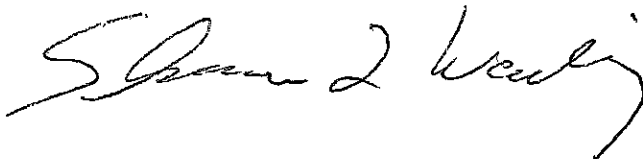

To the City Clerk,

I protest the excessive cost of \$186.40 proposed for my share of road maintenance.

I own only 40 feet shared by the street and alley, in which for the last few years have not been maintained except for the street sweeping that occurs twice a year before the leaves fall off the trees. The snow plowing always leaves me to clean up my part of the road because of the parked cars on the street near my home. I don't see any repairs to the street or alley to justify the assesment imposed upon me.

I would agree to pay half the amount imposed or up to \$120.00 in fairness to the City of St. Paul for the use of the one street light that sits in front of my house.

Upset Citizen,

Shannon Wadding, Taxpayer.
