Subject: 1962565007: 408 Charles Ave, Saint Paul, MN 55103

Hi Marcia, I wanted to give you an update on the above property address. I know that there is a hearing set for next week. Our listing agent has been given the approval to move forward with the demo. He informed me last week that before he can obtain the required permits an asbestos survey needs to be completed first. The survey cost was just approved today and should be completed in the next couple of days. Once the survey is submitted to the city the permits can take up to 10 days to be available. I wanted to give you this information so you don't think that we are not moving forward with the demo. Please let me know if you have any questions.

Thank you,

Christie Bovaird
