

Dear Rebecca

I don't understand what is going on with this variance request with last minute changes to the proposal. Seems to be a implementation mess.

I sent comments to SHA but I don't understand what action they took last night. Their communication is extremely confusing and I don't know what they did. Or if they are forwarding to you all the letters they received.

So I am writing again

I don't really believe it makes any difference whether it is a live band or a DJ

This business is not well operated and a continuing menace to the neighborhood

No one has a "right" to a sound variance. Sound ordinances are established to ensure we all live together in peace and harmony.

I do not support a variance for Billy's under any circumstances.

All the best

Peggy Reichert
