Hi Mai and Joanna,

Can one of you follow up with the appellant – my forthcoming recommendation on the garage is -

After consulting with the Building Official on the structural stability of the garage, I am recommending that the appellant have until July 1, 2020 to have the garage evaluated by an engineer and to August 1, 2020 to complete repairs under permit.

I put a follow-up note in the minutes and amended the resolution to reflect this.

Thanks, Marcia
