

Planning District 6

North End/South Como in St. Paul

About this area

The North End/South Como neighborhood is bordered by Larpenteur Avenue, I-35E, the Burlington Northern railroad, Lexington Parkway, and Dale Street. It boasts Crossroads Elementary (PreK-6), Paul and Sheila Wellstone Elementary (PreK-6), Saint Paul Music Academy (PreK-6), Maternity of Mary-St. Andrew Catholic School (PreK-8), Mississippi Creative Arts Magnet School (K-6), Washington Technology Magnet School (7-8), and Como Park Senior High School (9-12). The North End is also home to social service agencies, places of worship, parks, and businesses.

	Number	Percent	Number	Percent
COST-BURDENED HOUSEHOLDS* (2005-2009)				
All households for which cost burden is calculated	9,085	X	108,979	X
Cost-burdened households	S	S	44,649	41.0%
Owner households for which cost burden is calculated	4,827	X	62,310	X
Cost-burdened owner households	S	S	20,333	32.6%
Renter households for which cost burden is calculated	4,258	X	46,668	X
Cost-burdened renter households	S	S	24,316	52.1%
RENT (includes renter paid utilities) (2005-2009)				
Occupied units where residents pay rent	4,321	X	47,527	X
Median rent (2009 dollars)	\$704	X	\$ 758	X

* Households paying 30% or more of their gross income for housing are considered to be cost-burdened. This definition of affordability is formally recognized by the housing industry. Housing costs for homeowners include mortgages, real estate taxes, utilities and fuels. Housing costs for renters include rent, utilities and fuels (if the renter pays them).

NOTES ABOUT THE DATA

Data throughout these profiles come from three sources produced by the U.S. Census Bureau:

- 2010 decennial census (demographic data including total population, race and ethnicity, as well as housing units and types of households),
- 2009 Local Employment Dynamics data from OnTheMap (employment of residents, and local jobs and their characteristics); and
- 2005-2009 American Community Survey (all other data including income, education, housing and social characteristics).

Data from the 2005-2009 American Community Survey were collected by surveys over those five years, and therefore describe the average characteristics for the 5-year time period. These data have been adjusted using the 2010 census counts for population and housing to provide the best estimate of how many people or housing units relate to each characteristic. All dollar amounts are shown in 2009 dollars. Percentages may not sum to 100 percent due to rounding.

X indicates no data were available or not applicable.

S indicates that data were suppressed. Data have been suppressed when there were fewer than 10 people or units in a category, or the error margins were greater than ± 10 percentage points, or the error margins were greater than 25% of the estimate of a numeric value (such as median income). Large error margins occur when too few people were in the survey sample, making the data unreliable. If data have been suppressed at a neighborhood level, they are often available at a higher level of geography (community or city level).

Users are cautioned that many of the data on this document have error margins associated with them. Please visit www.mncompass.org/twincities/neighborhoods.php to access downloadable data files, including error margins and unsuppressed data.
