Hello Mai

I've adjusted the shed to meet the minimum 24" distant from the egress window on the main bedroom before June 30<sup>th</sup>, 2011. Wayne Spiering has inspected the unit on Monday, 7/11/11, and approved all changes. He instructed me to send pictures of the shed and measurement for a final confirmation from Ms. Moermond before he issue the certificate of occupancy. Could you help to review the three pictures attached with Ms. Moermond and let Wayne know if it's approved.

Property address: 1517 Old Hudson Road, St.Paul, MN 55106

Thank you

Building officials are also with DSI. Their general number is 266-8989. Ask for one of the building officials when you call and see if you would need a permit. -Mai

Hi Mai

What is a building official approval? Meaning I need a permit to fix the roof on the shed? The shed is not being used for a livable space. It is only for storage so I don't know if I need to get a permit or who to get the building approval for. Can you give me some guidance on these?

Thanks

Hello Ms. Dang,  
After listening to the tape, Ms. Moermond indicated that she is not going to make the call on whether you need to trim the roof or not. That will be your call but you may need to get bldg officials for approval. And yes the 24' distance will be required.
