

I support the property at 418 Sherburne Avenue becoming "Supportive Housing". I understand that there will be inspections and regulations applied by the State of Minnesota to the property under this new category. The building was built on a vacant lot that was used primarily by homeless drug addicts. So, the addition of the new building has made a positive change to the neighborhood. In addition, the building has been used as a sober house for the last sixteen months, and the management has done a good job in maintaining the quite enjoyment of the neighbors.
