<input type="checkbox"/> Accidental <input type="checkbox"/> Incendiary <input type="checkbox"/> Natural <input type="checkbox"/> Under Investigation	<input type="checkbox"/> Juvenile/Incendiary <input type="checkbox"/> Child (under 10 years old) <input checked="" type="checkbox"/> Undetermined																						
SYNOPSIS:	<p>The fire department was called for flames seen from a house. On arrival, crews found and extinguished a fire in a vacant single-family dwelling with extension to two nearby businesses. The fire began at the base of the east exterior wall of the primary fire structure and extended to the attic space via the eaves. The electrical drop for one of the exposure structures is in the area. Numerous cigarette butts found in the general area. Cannot rule out careless smoking nor electrical, although cigarettes seem more likely based on fire location. The first material ignited was structural components (siding). The ignition source is unknown. Unknown factors brought these together. The classification of fire cause is undetermined.</p>
