To whom it may concern,

The purpose of this appeal is due to the issues and circumstances we have faced on this project at 1783 Dayton ave, St.Paul.

To begin we never received payment from the Insurance company to begin work until the very end of May 2023. This project required a very thorough process for Demo because of the age of the house and because of the fire damage. We had to make sure any asbestos, lead and any other contaminants were removed before any further demo work and or repairs began. Once we received payment from the insurance company we ordered our roof trusses that had to be replaced due to fire damage and that was a 2 month lead time to receive those. That now puts us at the beginning of August 2023. Trusses arrive and the roof gets demolished and repaired which puts us out into september. Before any of the inside repairs began we had to do roof demo and repair due to the roof being exposed to the elements. From October 2023 to present is the time frame we've had to finish the interior repairs.

With the time and issues stated above you can see why it's been difficult to finish up the project in the time frame to avoid this condemned building fee.
