CITY OF ST PAUL, MN

RE: 575/595 PARK ST, ST PAUL, MN

Frank and Joanna,

Attached you will find our previous Estimate and Summary of Work. We consider the Code Compliance Report a part and parcel of our work plan. Additionally, I attach a copy of the Proposed First Phase Work Plan. Also attached is the Sworn Construction Statement. Usually, the Sworn is presented to the owner and the financial institution. Additionally, we reserve the right to adjust our costs due to the recent and dramatic rise in material pricing. Also, we reserve the right to change our subcontractors for the same reasons in order to remain in the same budget parameters.

We have begun the process of removing appliances, debris, soiled materials, and soiled fixtures. We are preparing to send broken windows to repair. Several doors are being removed into the roll off in the driveway. We are removing stairs and limbs for safety . Due to lack of electrical power we are not yet installing a temporary alarm system. When power is restored we will move on this issue. We have conducted a recent inspection and will be remove additional fixtures and cabinets as they are not suitable for repair and will be replaced. We are working on the site grounds for clean up. We will do what we can until the permits are issued.

Note: The repair of the furnace in 595 is not feasible due to extensive rust deterioration and suspect heat exchanger. This furnace will be replaced with new. Also, in this building a new downdraft furnace will be installed for the Second Floor unit. Also, 2 new water heaters will be installed. The Mechanical preparations are underway to remove old piping, ducting (soiled) and unusesed systems.

We envision that these 2 units will be done simultaneously. It is more cost effective to do so. That allows painters, carpeting, cleaners to move on both properties promptly. So the work flows from cleaning to patching, repair, painting, rough ins for mechanics to run smoothly. Then the finishing talkes place. Inspections of work will take place as required. We will follow codes as appropriate.

Sincerely,

Hector Flores

Dear Property Owner:

The following is the Code Compliance report you requested on April 21, 2021.

Please be advised that this report is accurate and correct as of the date April 22, 2021. All deficiencies identified by the City after this date must also be corrected and all codes and ordinances must be complied with. This report is valid for 365 days from April 22, 2021. This report may be used in lieu of a Truth in Housing Report required in St Paul Legislative Code 189. This building must be properly secured and the property maintained at all times.

In order to sell or reoccupy this property the following deficiencies must be corrected. A Legislative Code exemption (Chapter 33.03(f)) allows a Category 2 Vacant Building to be sold "as is" providing the buyer, prior to closing, completes an approval process. For further information, call Reid Soley at 651-266-9120.
